

Introducing Candover Brook to La Chaîne des Rôtisseurs at The Mutton at Hazeley Heath Friday 26th June 2026

Purposefully Crafted, Joyfully Shared

At Candover Brook, we tread lightly on the land and take our time to produce the very best English Sparkling Wines, perfect for celebrating.

Nestled in the idyllic Candover Valley, Hampshire, renowned for its chalk-rich soil and cool climate, our unique terroir lends itself to producing wines of exceptional character and elegance. Spanning just five hectares and with limited production, Candover Brook has no ambition of being the biggest, only the best, working in harmony with nature. The vineyard sits within the family's wider regenerative farm and epitomizes the conservation-driven ethos of its co-owners, Mark & Julian Sainsbury.

Founded on a commitment to soil health, biodiversity, and slow, sustainable excellence, the vineyard is redefining what it means to produce English Sparkling Wine with purpose. This attention to detail follows through into the winemaking process using only the very best 100% estate grown fruit with long lees ageing and time on cork, focusing on quality over quantity.
